We are proud to announce that Golden Crest Nursing Centre has received the Amercan Health Care Association Bronze Award for 2016! The Bronze Award is given to a select group of skilled nursing facilities who demonstrate the highest commitment to constantly improving the quality of nursing care for seniors and those with disabilities. Golden Crest was one of only seven RI facilities to earn this distinction.

Congratulations to Caren Cote, DNS and every staff member in every department on this tremendous achievement! We're proud of you!
